EUROPEAN  
TYPE APPROVAL

- ▶ Wide and comfortable travel space
- ▶ Lightweight foldable ramp
- ▶ OEM-Like finishes and accessories
- ▶ Top-class safety and ease-of-use
- ▶ Ideal for Taxi companies

## The Italian WAV concept

### VERSATILE

The Fiat Doblò Maxi conversion by the Focaccia Group is easily the most stylish product available to the market and is suitable for families, associations and busy Taxi companies alike. Thanks to the F-Style One lowered floor conversion each element is carefully designed to give maximum space and comfort to everyone in the vehicle.

### SPACIOUS

The F-Style One conversion accommodates the wheelchair user in style alongside up to 5 seated passengers. The rear double bench seat can be simply folded to create even more space for luggage.

### ELEGANT

Safety, design and comfort are the first considerations of the F-Style One conversions with close attention to detail of the smallest part. Elegant L.E.D. lighting, stylish but convenient handrails, a top quality hi tech floor and Italian interior design of the ABS trims perfectly complement those of the original OEM finish. The unique design and exclusive style of the Fiat Doblò by the Focaccia Group will grab the attention of anyone that sees it.

### SAFETY

Safety is the one consideration never compromised in a Focaccia designed product. The Doblò F-Style One has been comprehensively tested in accordance with EU Directive 2007/43/CE in the UK.

The **Genius Ramp** can be easily installed, as an option, into the Fiat Doblò Maxi F-Style One. The simple styling allows the ramp to be folded flat inside the vehicle re-creating the original floor level.

The conversion will allow greater flexibility of the internal space from the wheelchair user to luggage and packages when used in another configuration.

**F-WINCH** Another possible addition to the accessories included into the vehicle is the F-Winch. The revolutionary electric winch, designed and manufactured by the Focaccia Group in Italy, takes the strain off the carer and allows the wheelchair to be safely and securely stowed inside the vehicle. Operated and controlled by either a wired or wireless remote control, the F-Winch self adjust both acceleration and operational speed for maximum safety and peace of mind for the wheelchair user.

#### CONFIGURATIONS AND TECHNICAL SPECS

Usable Internal Height 1410 mm / 1450 mm  
 Access Height 1455 mm  
 Ramp dimension 1330 mm x 780 mm
